

Sports Premium Outcome/Impact Document

Employment of Sports Coach	Funding Allocation	How to achieve these targets	Outcome/Impact
<p>Aims and Objectives</p>			
<ul style="list-style-type: none"> • Continued CPD in Physical Education, Improve knowledge and confidence in teaching staff when delivering PE. Focus on NQT's • Increase participation in sports competitions <p>Continued increase in SEND events Boys Football League Girls Football league Multisports League To enter new events</p>		<p>Sports coach working alongside class teacher when delivering PE lessons. Assisting teachers in planning and delivery. To help improve confidence and knowledge of PE and sport. Feedback and guidance to be given on a regular basis to teaching staff. Programme to be introduced by PE coordinator to maximise effect.</p> <p>To continue liaising with as many schools and PE coordinators as possible. Continued entry of all Level 2 sports and events. To do our utmost to be successful in level 2 events, so we can then participate in level 3 and 4 competitions. To contact schools and try and initiate the inception of an East Birmingham Multisports League. To enter boys and girls football leagues and events that is part of the Erdington and Saltley Football League; league contact Joe Perkins. To enter new level 2 events such as dance. To keep parents and children up to date via newsletters and sports blog website.</p>	<p>Teachers overall are far more comfortable in delivery of PE. Teachers from KS2 have gained more confidence in their delivery. Questionnaire sent out to teachers reflects this, with many teachers now feeling competent in delivering all aspects of P.E.</p> <p>Further thinking: simplification of some PE modules from PE hub curriculum as some teachers find some session plans complex.</p> <p>Both our boys and girls have had the opportunity this year to play for our football team. Our boys team have played many fixtures and finished 3rd overall. They have also taken part in more competitions being successful in the Erdington & Saltley Invitational Cup. Our girls also finished 3rd in their league playing multiple matches. This uptake in the football leagues has led to many of our children getting the chance to represent the district team by being invited to trials with five children actually making it into the district team. We have also entered dance and gymnastics events as well as all SEND level 2 event. As well as this we have hosted one off events, such as table</p>

<ul style="list-style-type: none"> To have a greater number of children in achieving up to 25m swimming award. Extra emphasis on SEND events on clubs. Offering more opportunities for these children to take part in active sessions and events. 		<p>By targeting year 5 children who need extra swimming sessions (assessed by coach through curriculum sessions and through swimming badges). By offering these children more sessions through a six week block of swimming. Similar pilot scheme with year four children last academic year that was very successful.</p> <p>Sports coach to liaise with school SENCO Mrs Chudleigh, to target specific SEN needs, focusing on those children who have barriers to sport such as disability or learning difficulties. To facilitate clubs that is specific to these children's needs. Sports Coach to liaise with Level 2 SEND events coordinator to keep up to date with any events that are available to our children.</p>	<p>tennis.</p> <p>Further thinking: The conception of the East Birmingham Multisports League failed to materialise due to other schools not being able to take part due them being involved in other sporting events and comps.</p> <p>We have had many children overcome fear of water and also gain badges within swimming this year. Using extra sessions we targeted children who really struggled, trying to boost confidence and ability. We had many children swim without arm bands for the first time and some who even gained their 25m badge.</p> <p>Further thinking: some children are still struggling with swimming. By urging parents to bring their children outside of school we have had some success. Maybe by advertising free or reduced swimming slot times at local baths we would gain more success?</p> <p>We have had more children take part in SEN clubs and comps this year than ever before. A reflection of this has been in success' we've had in sports such as tennis, boccia, kurling and athletics. Our SEND teams won silverware in all these events this academic year. We have had lunch or after school clubs for SEND children in sports such as; boccia, kurling, athletics,</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<ul style="list-style-type: none"> To specifically target less active children Identify and develop gifted and talented; creating links with local clubs and liaising with parents. 		<p>To provide fitness based clubs that target the less active children.</p> <p>Through PE lessons, lunch clubs and after school clubs. Inviting children to gifted and talented clubs to develop their ability. To invite local sports clubs to help run events or deliver sessions to our children. Sports coach to inform parents of children's success sign posting them to local clubs.</p>	<p>tennis, cricket and football. Our SEND children feel extremely proud of their achievements.</p> <p>We had more children than ever take part in our cross country training sessions which has been opened to all of our KS2 children. As part of this we also targeted less active children to try and boost their morale and fitness levels. Some of our less active children persevered with the difficult training sessions attending every week. We also use breakfast sports clubs and lunch clubs to target less active children. Some of our less active children now seem more interested in sport and exercise with many of them wanting to take part in more clubs</p> <p>Further thinking; potential use of step tracker/pedometer for less active children so they can monitor their exercise rates.</p> <p>Again we have had more children than ever before represent our teams in variety of different sports. By liaising with parents regularly many of our children are now taking part in sports outside of school, joining football and cricket teams. By having our children attend events ran by Birmingham Exiles RFC or football comps being held at West Hills our children are now getting first-hand experience of playing at</p>
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<ul style="list-style-type: none"> To create local sports leagues 		<p>By keeping links with local schools and School Games Organisers. By inviting schools to meetings and sports events here at Hillstone. To organise and coordinate events in partnership with other schools as well as independently</p>	<p>better venues. We also have children now playing for the district and many attending trials. Our coach is often in conversation with many parents about what local clubs have to offer. This has led to many children now taking part in sport outside of school.</p> <p>This year we hosted, for the first time, a level 2 school games event. We hosted rounders due to our School Games Organiser suggesting it may be easier to take for other teams to attend if we host it locally to our area. This event was a rounders event, which was a fantastic event for us to host on our grounds. We have also hosted a table tennis event with another local school. This is a rare opportunity for children around our local area to take part in such a competition; table tennis. We are now going to host this event every year and try to involve more schools to attend. We have also arranged and took part in a tag rugby event outside of the school games format, again this is something we would like to do every year. The impact of this has been really positive with local schools being really impressed with our school grounds and the organisation of these events. It also has given more children the opportunity to take part in physical activity.</p>
----------------------------------------------------------------------------------	--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

			<p>Further thinking; to maybe revamp the idea of an East Birmingham Multisports League. Many schools are now participating in a huge amount of different sporting events, with many of them saying they would be able to commit to another league. Maybe by inviting and hosting different types of sports once or twice a term next academic year, we may get more schools attending. This would be without a league format as many schools would not be able to attend every event.</p>
